TYLER ULLMAN

VIDEOGRAPHER

Hello! My name is Tyler Ullman and I am a graduate of Malone University in Canton, Ohio. I have a Bachelor of Arts in Communication with a concentration in Film/Media/Theater and a Minor in Marketing. Growing up, I had a love for video production and theater. Storytelling, whether on screen or on the stage, is my passion.

As you see in my resume, over the past few years I have gained various experiences in video production where I have been able to grow in my technical and storytelling abilities. Specifically, during my Video Specialist position, under the leadership of Grace Church's Emmy-Award-winning Video Director, I was able to gain valuable knowledge from her expertise. She was a former news producer for FOX 31 Denver and had a lot to share.

Currently, I am on staff at WRL Advertising in Canton, Ohio creating meaningful content for all of our clients. My current role at WRL Advertising has been an awesome experience as working at a marketing agency grants the opportunity to create a wide variety of content for a wide variety of clients. Currently, I am a videographer, photographer, and their sole FAA Certified commercial drone pilot. Some of my favorite project highlights at WRL have been filming with football star Joe Namath, creating a cinematic recruitment film for a local police department, re-branding and creating content for The Village of East Palestine after their tragic train derailment, meeting President Biden with the White House Press Corps, and more!

I am also a wedding videographer and own Ty Creative Films, LLC where I typically shoot around 6-10 weddings a year. Since it is a side profession, I keep my number of weddings per season down to ensure proper focus and care for my clients. I have been filming weddings since 2018 and officially establishing my business in 2020. It has been a great outlet to progress and grow in my creative abilities.

Working at a Marketing Agency, I've had ample experience with getting to know how companies work, what they want, and the creative abilities to get them there. WRL allows the unique opportunity for their artists to also be account executives and manage their own clients. Thus, I have project management experience allowing our clients to feel seen, heard, and valued. Project management and client relationships are also key aspects of my wedding business.

My portfolio site is listed below where you can view a collection of my favorite projects!
